PARENT-DIRECTED

[CLICK HERE](#)

The Parent-Directed Learning Space is a flexible homeschool curriculum designed for students in grades 5 through 8, offering over 200 hours of core subject material that meets state educational requirements. The program provides a blend of online and offline content, featuring engaging animated videos, virtual field trips, and hands-on, project-based activities that can be completed at a student's own pace.

TEACHER-DIRECTED MICROSCHOOL

[CLICK HERE](#)

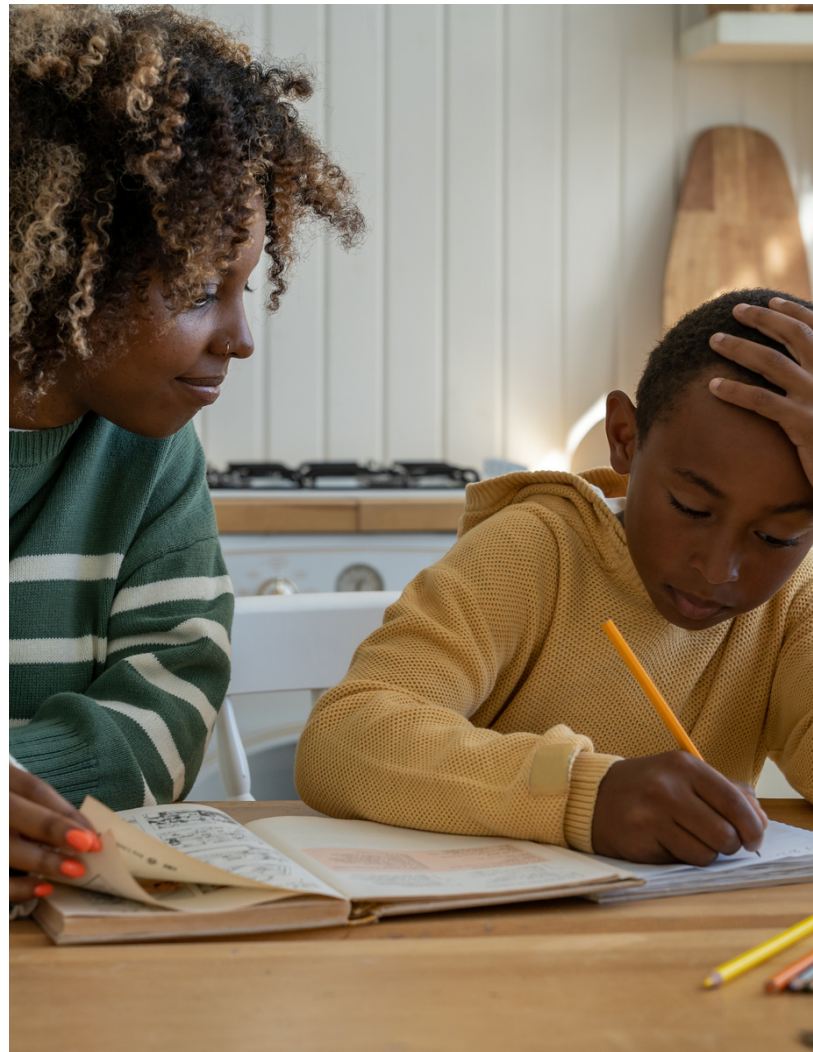

The Teacher-Directed Microschool is an online educational program designed for students in grades 5 through 8 that offers a collaborative, low-pressure environment aligned with state standards. Led by certified teachers, the program features three-hour daily sessions from Monday through Thursday, covering core subjects such as Math, Science, ELA, Social Studies, and project-based STEM.

HOW TO PLAN YOUR HOMESCHOOLING YEAR CHEAP!

Homeschool curriculum can get expensive fast—but it really doesn't have to.

You do not need to buy a \$1,000 boxed curriculum to homeschool successfully.

OUTSCHOOL CLASSES

[CLICK HERE](#)

A+ Virtual Learning is an online K-12 homeschooling organization and offers a variety of educational formats on the Outschool platform, including live group classes, one-on-one tutoring, and self-paced options. The current course catalog features homeschool math courses, project-based courses, and unique electives like "Build a Business in Middle School". We welcome use of state funding, such as Education Savings Accounts (ESA) and micro-grants.
